MARINE AND UNDERWATER OPERATIONS

PUBLIC SAFETY

PRODUCT CATALOG

www.cascoantiguopro.com

Casco Antiquo is a company with more than 40 years of experience in the manufacture, sale, distribution and marketing of professional, technical and recreational diving equipment.

Its professional and technical area supplies diving equipment for the specialized divisions of **Commercial Diving and Underwater Technology, Military Diving, Rescue & Public Safety**, covering a very complete catalog of materials and technical equipment used by the State Security Forces, firefighters and rescue units, in addition to the great contribution of equipment for underwater research that the **Oceanography** division provides.

PUBLIC SAFETY CATALOG

Leaders in the underwater technology market with experience and international presence to meet the needs of each of our customers. Since our origins, we are professional divers, a quality that allows us to know the characteristics of underwater works. Therefore, we offer advice, consultancy and training as added values to the sale of public safety equipments

We have an engineering and R+D department for the development, manufacturing, certification and commissioning of equipment. We have an official technical service for the repair and maintenance of different equipment. In addition, We are certificated with the ISO 9001 and ISO 14001 standards
